

Hurricane Matthew Restoration Update # 2

WEDNESDAY 10/12/16

Now that the dust (sand) has settled, a quick update as to what's going on.

The south walk thru gate is once again operational .
Tomorrow (weather permitting) we are scheduled to have our temporary garage roof repair.

All broken glass windows/doors have been covered with wood. These are the emergency fixes to keep things dry. Please know we are working on getting things back to "normal". The north gate, and other things will be addressed after the adjuster comes, which will hopefully be shortly. Please be patient, everyone all around has suffered losses and we have damages. When you're out take a look around and be thankful it wasn't worse. Yes we are all going to be inconvenienced but it was a hurricane!! Just remember we are working on it.

We are now waiting for the insurance adjuster to come and access all our damages. I have been in contact with our agent on a daily basis. They have been here as well to make sure we know they are also working to make us whole again.
